

Research Investigation Task (Total: 12 marks)

Scenario: Your class is making a "Settlements Guide" for a new student who has just joined your school. Your teacher has asked you to plan a short investigation for one section of the guide.

1.1 Choose the research question you would like to investigate. Circle or tick **one** option. **[1]**

- **Option 1:** Why do some settlements grow into large cities while others stay small?
- **Option 2:** What services (such as schools, shops and hospitals) do people need in a settlement?

1.2 Give **two reasons** why you chose this question instead of the other one. **[3]**

Reason 1: _____

Reason 2: _____

1.3 Think about where you could find information for your chosen question.

(a) Name **one primary source** you could use. **[1]**

(b) Name **one secondary source** you could use. **[1]**

1.4 Describe **one problem** you might have while doing this investigation. **[1]**

1.5 A classmate has written a plan to investigate why some settlements grow bigger than others. Read the plan below.

Plan for My Settlements Investigation

1. I will ask my best friend and my cousin why some towns get very big.
2. I will search the internet and copy the first paragraph I find.
3. I will make a colourful poster with lots of pictures of cities.
4. I will show my poster to the teacher on Monday.
5. I will not check if my information is correct.
6. I will start on Sunday evening and finish before bedtime.

Evaluate this plan. In your answer:

- Give **two strengths** of the plan. **[2]**
- Give **two weaknesses** of the plan. **[2]**
- Suggest **one improvement** and explain why it would make the investigation better. **[1]**
