

MYP-1 Summative Assessment-1 (SA1) Schedule & Syllabus (July 2026)

Sl. NO	Date	Subject
1	July 20th , 2026	Science
3	July 21st , 2026	Individuals and Societies
4	July 22nd , 2026	Language Acquisition (French/Spanish/Hindi)
4	July 23rd, 2026	English Language and Literature
5	July 24th , 2026	Maths
6	To be conducted in their class hours.	Group 6: Arts
		Group 7: Design
		Group 8: Physical and Health Education

MYP1- SA1 - Dates & Syllabus (July 2026)

Sl. NO	Subject	Syllabus	Criteria
1	Group 1: English Language and literature	Unit-1-Myths and Legends Story telling ,narrative techniques,plot pyramid,characterisation, significance of myths and legends	Criteria-C-Producing text Criteria-D-Using language
2	Group 2: Language acquisition (French)	Topics: 1. Myself 2. My family <u>3.</u> Describing people Text type: Letter/Post card Grammar: 1. Irregular verbs 2. Present tense (revision) 3. Possessive adjectives 4. Descriptive adjectives	A:- Listening B:- Reading
	Group 2: Language acquisition (Hindi)	Unit 1: Self, Family and Friends Topics: 1. Types of family, Family and Relationships, 2. Physical and Character Descriptions, 3. Leisure Time- Hobbies and activities Grammar: 1.In/I (मैं और मैं का प्रयोग) 2. Varn-vichched 3. Gender 4. 'There is / There are (है और हैं का प्रयोग)	Criterion A: Listening Criterion B: Reading
	Group 2: Language acquisition (Spanish)	Unit 1: Self, Family and Friends Topics: 1. Greetings & Introductions,	A:- Listening B:- Reading

		2. Types of family, Family and Relationships, 3. Physical and Character Descriptions, 4. Different professions Grammar: 1. Basic verbs (present tense) 2. Possessive adjectives 3. Adjectives of description 4. articles- definite and indefinite 5. Gender	
3	Group 3: Individual and societies	Unit 1: What does it mean to be a global citizen? • Meaning of global citizen • Major issues facing the world and its solutions • Plastic waste • Deforestation • Historical and modern examples of global citizens (e.g., Malala Yousafzai, Greta Thunberg, Wangari Maathai) • Cause and impact of plastic pollution - Case study: The Great Garbage Patch. • Comment on the role of individuals in changing the world. • Suggest some measures to tackle plastic pollution.	Criterion A & C
4	Group 4: Integrated Sciences	UNIT-1 WHAT DO SCIENTISTS DO ? • Measurement Skills-Estimating measurements, Rounding numbers • Precision vs Accuracy • SI Units: Length (meter), Mass (kilogram), Time (second), Temperature (kelvin/°C), Volume (liter) • Understanding Scientific Environments-Lab vs Classroom, Lab safety basics, Sustainable scientific practices • Scientific Investigation Skills What is an	Criterion B and C

		experiment?, Identifying variables; Formulating: Research Question, Hypothesis-Criterion B Data Representation Using tables, Using graphs, Drawing speed-time graphs, Interpreting data.-Criterion-C	
5	Group 5: Mathematics	Forms of Numbers - Natural - Whole - Integers - Integers on Number line. - Fractions & Decimals Percentages - Basics & Conversions - Basic Profit & loss Properties of Numbers - Commutative. - Associative. - Distributive - Identity Properties Factors & Multiples - Factors & Multiples. - Prime Numbers. - Prime Factorization - LCM & HCF of 2 numbers Number Operations - BODMAS rule. - Addition, Subtraction of Fraction & Decimal. - Simplification of fractions. Ratios & Proportions - Intro to Ratio and Proportion Exponents & Powers - Writing numbers in exponent Notations. - Understanding square numbers & cubes Square Roots - Understanding square roots - Basic Cube roots - Rounding off numbers-2 & 3 decimal places(Accuracy concept to be discussed) Time, Clocks & Timetables - Reading clocks, understanding time zones	Criteria A and B

6	Group 6: Visual Arts	Identity Investigation – Students investigate how artists use the elements of art to communicate identity. They research Warli Art and one selected artist/artwork, describing how visual elements such as shape, form, texture, and colour express personal or cultural identity. Creative Identity Development – Students explore ideas through a minimum of three exploratory artworks/sketches, experimenting with different elements of art and techniques. Using these investigations, they develop and present a final artwork titled “My Creative Identity” with a clear artistic intention.	Criterion A – Investigating Criterion B – Developing
	Group 7: Design	● Identify a design problem and explain the need for a solution. ● Conduct research, identify user needs, and present research findings. ● Analyse an existing interactive digital product and identify the features that inspire a solution. ● Understand the basics of interactive digital systems, including programs, inputs, and outputs. ● Create and interpret simple algorithms and flowcharts for planning interactive digital solutions. ● Identify the PictoBlox interface and explain the purpose of the main block categories.	Criteria A
	Group 8: Physical, Health and Education	Sports Training (cardiovascular endurance) A. Fitness Components B. Training methods Introduction to skill related fitness components, types of fitness components. C. Applications of fitness components. D. Methods of training- Introduction to various methods of training, E. Principles of training F. Benefits of specific training methods.	Criteria A & D A – Knowing and understanding D- Reflecting and improving performance
