

MYP 1 Summative Assessment-2 (SA2)

Schedule & Syllabus (September 2026)

Sl. NO	Date	Subject	Mode of assessment & Brief Task description
1	07/09/2026 Monday	Language Acquisition (French/Spanish/Hindi)	Pen and Paper Criterion C- Speaking Skill Criterion D- Writing Skill
2	08-09-2026 Tuesday	Science	Criterion-A -paper based {written} Criterion D -Project based (Task will be shared with the students on 17 th August and the due date is 30th August)
3	09.09.2026 Wednesday	Individuals and Societies	Criterion A - Knowing and Understanding Criteria B Investigating: The Investigation Journal (Submission based research task) Criteria D thinking Critically: The Critical Urban Proposal (Problem solving task focusing on solutions to urban settlements)
4	10/09/2026 Thursday	English Language and Literature	Pen and Paper Criterion-A-Analyzing Criterion-B-Organizing
5	To be conducted in class (Between September 10 to 15)	Maths	<i>Mode of assessment - As a presentation in the class (We assess Criteria C)</i> <i>Students will submit a chart work/infographic individually (We assess Criteria D)</i> In this task, according to our Inquiry Statement & GC the students are assigned with a topic - The students work and plan in groups but the submissions and presentations are individual which makes grading transparent and according to the rubric.

			In the Task students collect data (Primary & secondary), organise it, interpret it graphically and then analyse it using spread, central tendency and probability.
6	To be conducted in their class hours.	Group 6: Arts	Practical / Art journal Based Criterion B – Developing Students develop Warli Art skills through exploratory sketches, practising figures, shapes, patterns and composition connected to the unit's SOI. Criterion C – Creating Students create a final original Warli artwork connected to Identity, Expression and Perspective, using Warli techniques and visual elements to communicate personal or cultural identity.
		Group 6: Dance	Mode of assessment: Performance Students will create and perform a dance composition where they apply elements such as movement, space, rhythm, and expression. They will reflect on how changes in composition influence meaning and how cultural identity is expressed through their performance. Criterion A – Investigating: Explore dance forms, cultural contexts, terminology, and connections to performance. Criterion B – Developing: Develop movement skills and apply them to create dance compositions. Criterion C – Performing: Explore artistic intentions and ideas through structured dance performances. Criterion D – Evaluating: Reflect on context, evaluate choices, and recognise influences in dance.

		Group-6:Music	Mode of assessment: Performance,Self Reflection Students will prepare and perform a short vocal piece individually or in a small group. They will demonstrate their understanding and application of tone, pitch, timbre, dynamics, and basic vocal techniques.
		Group 7: Design	• Develop success criteria for an interactive digital solution based on research findings and user needs. • Generate and present multiple feasible design ideas for an interactive digital solution. • Create and interpret planning diagrams such as algorithms and flowcharts to communicate design ideas. • Apply knowledge of inputs, outputs, variables, operators, and conditional statements when designing solutions. • Use sketches, screen layouts, annotations, and flowcharts to communicate ideas clearly to others.
		Group 8: Physical and Health Education	CRI-B - Planning for performance CRI-C-Applying and performing

MYP1- SA2 - Dates & Syllabus (September 2026)

Sl. NO	Subject	Syllabus	Criteria
1	Group 1: English Language and literature	Advertisements Types of advertisements Jingles-poetry in advertisements Slogans in advertisements	Criterion-A-Analyzing Criterion-B-Organizing
2	Group 2: Language acquisition (French)	(Pen & Paper) Unit: House & Home Topics: 1. Parts of the House 2. Objects in the house 3. Types of the house 4. Description of a house Text type: 1. Blog	Criterion - C (Speaking Skill) Criterion - D (Writing Skill)
	Group 2: Language acquisition (Hindi)	(Pen & Paper) Unit: House & Home Topics: 1. Parts of the House 2. Objects in the house 3. Types of the house 4. Description of a house Text type: 1. Autobiography of House 2. Dairy writing	Criterion - C (Speaking Skill) Criterion - D (Writing Skill)

	Group 2: Language acquisition (Spanish)	Unit: House & Home Topics: 1. Parts of the House 2. Objects in the house 3. Types of the house 4. Description of a house Text type: 1. Autobiography of House 2. Dairy writing)	Mode of Assessment : Criterion - D (Writing Skill) Criterion C: Individual Classroom Presentation: Students will deliver an individual presentation on the prescribed topic during class. Assessment will focus on effective communication, organization of ideas, language use, and audience engagement in accordance with MYP Criterion C.
3	Group 3: Individual and societies	Unit 2: Where do we live? • What is a settlement? • Difference between a site and a settlement • How and why people live together in settlements • Types of settlements (hamlet, village, town, city, megacity) • Urbanization and its impacts • Sustainable development in urban planning • Eco-friendly infrastructure (green buildings, waste management, renewable energy)	Criterion A - Knowing and Understanding (use of vocabulary in context to the task) Criteria B Investigating: (Research based journal) Criteria D thinking Critically: (The Urban planning proposed solutions)
4	Group 4: Integrated Sciences	Unit 2 What changes (Matter and Materials) • Particle model. • States of matter and their characteristics • Properties of states of matter. • Physical and chemical changes (definition with one example) • Interconversion of states of matter	Criterion-A-Knowing and Understanding Criterion-D-Refelecting on the impacts of science
5	Group 5: Mathematics	Unit 2: Data With Reasoning	Criteria C- Communication

		● Introduction to data: what is data? ● Types of data: discrete vs continuous. ● Sorting data into categories Classification using frequency tables ● Design simple surveys using closed-ended questions. ● Understand sample vs population. ● Collect own data through observation/surveys ● Draw and interpret: (Bar charts, Pictograms, Histogram, Line plots and Pie Chart) ● Identify elements of infographics (charts, icons, labels). ● Interpret visual data (Basics). ● Understand and calculate: Mean, Median & Mode (for small data sets) ● Measure of Dispersion ● Understand and calculate range. Interpret data with range calculations. ● Understand chance and likelihood using words (impossible, likely, certain). ● Understanding basic terminologies in probability (Experiment, Event, Sample space, Trial, Outcome, Random Experiment). ● Simple real-life examples (dice, coins, spinners) ● Conduct simple experiments (e.g., rolling dice). ● Compare predicted vs actual results.	Criteria D: Applying Mathematics in Real-life Contexts
--	--	---	---

6	Group 6: Visual Arts	UNIT- 1 (Identity Unveiled: A Journey through Shape,Form, Texture, and Colour) Warli Art Development – Students develop Warli art skills through exploratory sketches, practising figures, shapes, patterns and composition to express creative identity and personal ideas in connection with the unit's SOI. Final Warli Artwork – Students create an original Warli artwork connected to Identity, Expression and Perspective, using Warli techniques and visual elements to communicate personal or cultural identity.	Criterion B – Developing Criterion C – Creating
---	----------------------	---	---

	Music	• Musical Literacy • Piano/Keyboard/guitar/drums Introduction • Music annotation/reading skill building • Primary vocal performance-Understanding Tone and Pitch: -Students learn to identify and understand various elements of vocal music such as tone, pitch, timbre, and dynamics. -They will also develop basic vocal techniques to practice in order to improve their singing	Criterion A: Investigating i. investigate a movement(s) or genre(s) in their chosen arts discipline, related to the statement of inquiry ii. describe an artwork or performance from the chosen movement(s) or genre(s). Criterion B: Developing i. ii. practically explore ideas to inform development of a final artwork or performance present a clear artistic intention for the final artwork or performance in line with the statement of inquiry. Criterion C: Creating/Performing i. create or perform an artwork. (Please see the note below regarding progression of skills for this criterion.) Criterion D: Evaluating i. ii. appraise their own artwork or performance reflect on their development as an artist.
--	---------------------	---	---

Group 6: DANCE

Unit 1: Stars on Stage: Enacting Dance Performance

What are the different elements of dance composition?

How can changing the composition of a dance alter its meaning?

Is the cultural context of a dance more important than its technical composition?

- Students explore Dance games for improving rhythm, body movements skills such as balance, speed, and flexibility for a better Dance performance, Elements of Dance, and students Understand elements of Indian classical and folk dances, creating movement using a traditional dance form.
- Students develop body movement skills such as balance, speed, and flexibility, understanding elements, and creating a movement.

Criterion A – Investigating: Explore dance forms, cultural contexts, terminology, and connections to performance.

Criterion B – Developing: Develop movement skills and apply them to create dance compositions.

Criterion C – Performing: Explore artistic intentions and ideas through structured dance performances.

Criterion D – Evaluating: Reflect on context, evaluate choices, and recognise influences in dance.

	Group 7: Design	• Develop success criteria for an interactive digital solution based on research findings and user needs. • Generate and present multiple feasible design ideas for an interactive digital solution. • Create and interpret planning diagrams such as algorithms and flowcharts to communicate design ideas. • Apply knowledge of inputs, outputs, variables, operators, and conditional statements when designing solutions. • Use sketches, screen layouts, annotations, and flowcharts to communicate ideas clearly to others.	Criteria B: Developing Ideas
	Group 8: Physical, Health and Education	1. What do you mean by Aesthetic Movement? 2. What is Aerobics? 3. What is the history of Aerobics? 4. What are the types of Aerobics? 5. What are the elements of Aerobics? 6. What are the benefits and drawbacks of Aerobics? 7. Step Aerobics, Sports Aerobics, Aerobics Dance Task- In Criterion B (CRI-B), students are planning and designing a training session based on aerobics. In Criterion C (CRI-C), students have to perform the training session they designed.
