

Students Name:	Grade: MYP I	Date:
Subject: Individuals and Societies	Unit Title : Where do we Live?	
Task: Research and Reflection		Task Duration: 25 minutes
SOI: As settlements change and grow, they affect the places we live, the way people interact, and how communities live, shaping our identity, relationships, and well-being over time.		

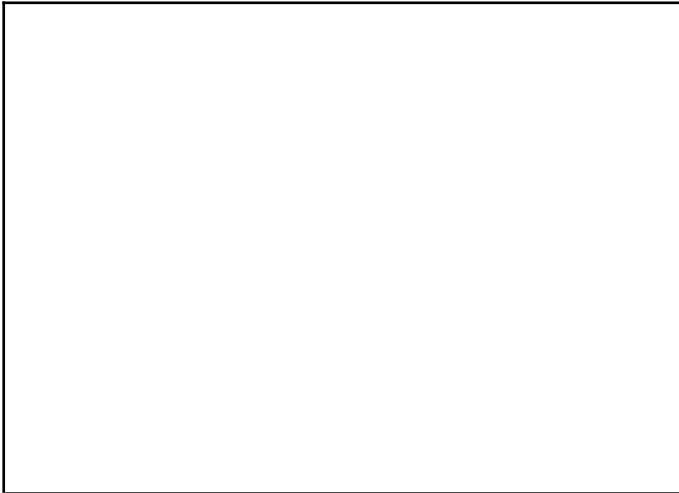

Gather information on settlement patterns of the city you are currently living in (Hyderabad) and your hometown (the city/town/village that your parents or grandparents might have moved from)

1.1 Use Google earth/ Google Maps to find a satellite view of Hyderabad. Take a screenshot of it, print and stick it below:

1.2 Identify the pattern of settlement you observe in the Satellite image of Hyderabad

1.3 Describe the settlement pattern (of Hyderabad) that you observed

1.4 Use Google earth/ Google Maps to find a satellite view of your hometown. Take a screenshot of it, print and stick it below:

1.5 Identify the pattern of settlement you observe in the Satellite image of your hometown.

1.6 Describe the settlement pattern (of your hometown) that you observed

1.7 Reflect on the following question:

Do you think Satellite images are a good resource to research settlement patterns? **List** Two advantages and disadvantages of satellite images.

Advantages	Disadvantages

1.8 List the settlement functions available in Hyderabad and describe what makes it a good settlement?

1.9 List the settlement functions available in your hometown and describe what makes it a good settlement?
