Message from the Head of School

Dear Parents,

The month of July saw The Gaudium School settle into rhythm, with the introduction of life skill development sessions, field trips, outdoor camps, inter house competitions, the Student Council elections, team sports and also the assessments.

Our school empowers our students from an early age to the principles of inclusion, respect for diversity, equity and democratic values. Added to this is the learning of self management skills.

In the pursuit of creating global leadership attributes in our students, we introduce the principles of elections for their student leaders. This requires students to submit their statements of purpose for the candidature, followed by group discussions and personal interviews that take the cohort through vibrant conversations on transforming the local and the global environment with the best practices that they come up with. I must state it is a sense of great personal joy to interact with these young minds and the ingenious plans that they have by which they can positively impact the Gaudium community.

Other platforms that were provided for our students to embody global citizenship attributes were activities such as thematic morning assemblies, debates, Mock Parliament and the character parade and declamation by our Primary School students.

Students develop their communication skills and confidence when they actively participate in these events, their minds being moulded by empathy and respect for others. Unknowingly they start displaying aspirational qualities and values that strengthen the culture of the school.

Whether it was the fire drill, the Van Mahotsav celebrations, the communication of emotions through emojis or the making of chocolate cookies, our early years students stand out for their calmness of attitude, curiosity and energy to experience the unknown. Dear Parents, nurture the wonder that is your child!

This year promises to be one full of creative action, reflection and skills for future readiness. Join us on this glorious journey; let's together nurture the happy minds at The Gaudium School.

Sudeshna Chatterjee
Head of School

MYP Coordinator's Message

Building Skills Today, Empowering Futures Tomorrow

Dear Parents,

As an MYP Coordinator, I strongly believe that education is not just about what students learn, but also about **how they learn and what they are able to do with their learning**. The Middle Years Programme provides students with a unique opportunity to develop the skills and attributes that will guide them throughout their academic journey and beyond.

Through the intentional development of **Approaches to Learning (ATL) skills**, our students learn to communicate with confidence, think critically and creatively, collaborate effectively, conduct meaningful research, and manage themselves as independent learners. These skills empower them to approach challenges with resilience, make informed decisions, and take ownership of their learning.

The MYP encourages students to step beyond textbooks and classrooms—to question, explore, reflect, create, and connect their learning to the real world. Every experience, whether inside or outside the classroom, becomes an opportunity to discover their strengths, develop new skills, and grow as individuals.

At The Gaudium we create all the opportunities be it class Assemblies, Inter house competitions, or the Master classes which would foster overall development of the Learner.

The skills our students develop today will become the foundation for their future success. In a rapidly changing world, adaptability, collaboration, problem-solving, communication, and lifelong learning are invaluable. Our aim is to nurture young people who are not only knowledgeable but also **confident, compassionate, responsible, and ready to make a positive difference in the world**.

As we continue our MYP journey together, let us celebrate every opportunity that helps our students discover their potential and equip them with the skills to **learn today, lead tomorrow, and thrive in an ever-changing world**.

Dr.K.Padmaja
MYP Coordinator

Associate Coordinator's Message

This month, we celebrate the IB Learner Profile attribute Inquirers. Inquirers nurture their natural curiosity and develop the skills needed to explore new ideas with confidence. Across all subjects, in the process of preparing for summative assessments, our students are asking thoughtful questions, conducting investigations, and seeking evidence to deepen their understanding. They are encouraged to explore different perspectives, think critically, and make meaningful connections to the world around them. By fostering curiosity and a love of lifelong learning, we are helping our students become independent thinkers who are prepared to face future challenges with confidence.

Ms. Sunita Velamati

Associate MYP Coordinator

Message from Head Boy

Honorable Chief guest Smt.Sirisha Raghavendra, CEO Ramakrishna Reddy Sir, Head of School Sudeshna Mam, parents, teachers and my fellow students, good morning.

12 years ago, I walked through the gates of this school for the first time. I was too young to remember much of it now, if I am honest. I do not remember what I wore, I do not remember if I cried, I do not remember a single face from that first day. But I do know that this school shaped who I am today. Everything I am today was built inside these walls.

There is one memory I will never forget, and it did not happen in a classroom. When I was in fifth grade, I was part of a team who pitched an idea to make school more accessible for the differently-abled. What did happen was that Ramakrishna Reddy Sir walked us out of his own office and personally showed us the facilities built across the school for students with physical disabilities. He did not have to do that. Instead, he walked with us, talked with us, and showed us that this school thinks about people even when no one is asking it to.

Alongside Ramkrishna Reddy Sir, Kirthi Ma'am's vision for this school was never just about academic results, it was about building people who are whole, aware, and kind.

Thank you our founder & director Kirthi Reddy Mam, for fostering a culture that is intrinsically unique and accepting. I am eternally grateful. Thank you to Sudeshna Ma'am, our Head of School, for your constant support and guidance. And I also thank the coordinators and teachers for being forever approachable, for molding me and so many others into the people we are today.

Message from Head Boy

To the new council: I cannot express how grateful I am that I get to share the next one year with representatives of four amazing houses. What we have to inculcate in ourselves is accountability. What we have to remember is that being a leader means being accountable for the actions of those we represent. The responsibility is ours; it is time for us to step up.

To the previous council: every single speech, every single house assembly has touched and inspired me. I hope to do the same over the next one year. Thank you for giving us such large shoes to fill.

One way we intend to fill them is by bringing our alumni back, not for a reunion, but to sit with us and guide our students on what comes next. Another way is by participating in school events that have gone quiet, whether that is music, media, or taking part in the dance club.

What this does is incite purpose in all of us. That is what we, as your council, want to achieve this year. We are happy to help, happy to guide, and more than happy to just say hello if there is no issue. You belong here. We all do. The council is just here to remind you of the same.

Representing the school is not a personal achievement; it is a humbling privilege. I promise to take on this task wholeheartedly. So, for the first time since I joined this school, I am proud to offer a new introduction for myself:

My name is Sukrith, and I am the Head Boy of The Gaudium 2026/27.

Message from Head Girl

Good morning, honourable Sirisha Ma'am, CEO Ramakrishna sir, Head of School Sudeshna Ma'am, esteemed teachers, parents, my fellow student leaders, and my dear friends.

To begin my speech, I would like to share a short story that we've all heard countless times throughout our childhood.

"It was summer. The day was very hot. A crow was very thirsty. He searched everywhere for water but could not find any. At last, he found a pot with only a little water at the bottom. So he picked up stones, one by one, and dropped them into the pot until the water rose high enough for him to drink."

As children, we were told this story teaches us perseverance. And it does. But as I've grown older, I've realised it teaches us something more.

We all remember the clever crow. We all remember the water. But almost no one remembers the stones. They were ordinary. Small. Almost invisible. Yet without them, there would be no story.

Perhaps our lives are not so different. When people see someone standing on this stage, they often see the achievement and the badge. What they don't see are the countless stones that quietly made that moment possible.

Whether it was a teacher who stayed back after class, parents who reminded you not to give up, friends who stood beside you through every success and failure, coaches who pushed you further than you thought possible, or even challenges that helped you grow—

Each one was a stone.

And perhaps the pot is a little like us.

Each of us arrives at school with potential already inside us. Sometimes we cannot see it ourselves because it feels just out of reach. But with every lesson, every opportunity, every mistake, and every word of encouragement, that potential rises a little higher.

Message from Head Girl

Alone, a single stone changes very little. But together, hundreds of stones can transform what once seemed impossible. Our school is built on the same idea. More than 4,000 students, each with different strengths, ambitions, and stories, come together as one community.

A community isn't united simply because we wear the same uniform or study in the same classrooms. It's united by the values we choose to live by. Every stone carries a purpose. Some represent responsibility. Others remind us to act with integrity, to persevere through challenges, to treat everyone with respect, and to remain grateful for those who help us grow. Together, these values become the foundation of our school.

Standing here today as your Head Girl, I know this honour is not the result of one achievement or one examination. It is the result of every member of this school community—including the support staff whose work, like the stones in the story, often goes unnoticed but makes all the difference.

Today, I may have the privilege of wearing this badge, but to me, it is not a symbol of authority, but of responsibility. Leadership is not about standing above others. It is about standing beside them—listening, serving, and helping every student feel that their voice matters.

Just as so many people became stones in my journey, I hope to become one in someone else's.

The true hero of the story was never just the crow. It was every small stone that made the impossible possible.

This is what makes our school so special. It is not one student, one teacher, or one achievement that defines us. It is thousands of ordinary people making small choices every day that strengthen our community. Individually, we each have our own voice. But together, those voices become something far greater.

And if, by the end of my term, I can become even one of those stones for someone else... I will consider that my greatest achievement.

Driti Reddy
Head Girl

Core in MYP:Community Engagement Holistic Excellence

CE in July has been a month of learning beyond our subjects. Our MYP students began the Community Story Mapping activity, where they explored and debated the neighbourhoods they call home – building real awareness of the communities around them.

We also marked Kargil Vijay Diwas with pride. Students had a rare and powerful opportunity to meet and interact with a decorated war veteran, hearing first hand stories of courage and sacrifice.

Both experiences carried one message: leadership begins with understanding your community and honouring those who serve it. Our students are listening, learning, and growing into the leaders our nation needs.

Mr. Shakti Savarn , Community Engagement Coordinator

Core in MYP: Personal Project Holistic Excellence

Personal Project Milestone: Turning Ideas into Action

MYP 5 students are actively progressing through one of the most significant components of the IB Middle Years Programme—the Personal Project. They have successfully finalized their learning and product goals, ensuring their projects are purposeful and aligned with their personal interests.

Regular meetings with supervisors are guiding students as they refine ideas, overcome challenges, and plan their next steps. Alongside developing their products, students are carefully documenting their journey through reflections and process journals, demonstrating growth in research, communication, critical thinking, self-management, and reflection. This process fosters independence, resilience, creativity, and the IB Learner Profile, preparing students to become confident, lifelong learners.

Ms. Gayatri Meena , Personal Project Coordinator

Core in MYP

IDU: Interdisciplinary Understanding

This month, our MYP teachers came together for an introductory session on Interdisciplinary Understanding (IDU), marking the beginning of our collaborative planning journey for the academic year. The session focused on developing a shared understanding of the purpose and significance of IDUs within the IB Middle Years Programme and how meaningful connections between disciplines can enrich student learning.

Teachers explored the essential elements of effective interdisciplinary units, including identifying common conceptual understandings, fostering inquiry through authentic real-world contexts, and designing learning experiences that encourage students to transfer knowledge and skills across disciplines. As we move forward, teachers will continue working collaboratively to create engaging interdisciplinary units that promote critical thinking, creativity, and meaningful learning experiences for all students.

Mr. Shivaprasad Karnati, IDU Coordinator

Language and Literature

Holistic Excellence

Throughout July, MYP Language and Literature students strengthened their creative and analytical skills through engaging learning experiences. MYP 1–3 students explored a range of genres, including mythology, fantasy, mystery, and Gothic literature, crafting original narratives while refining plot structure, pacing, and descriptive language. Mock revision activities helped prepare them for upcoming assessments.

Meanwhile, MYP 4 and 5 students analysed and created literary and non-literary texts such as speeches, diary entries, newspaper reports, and opinion articles. Through collaborative discussions and evidence-based analysis, they examined purpose, audience, context, and stylistic features while developing critical thinking and analytical writing skills. Across all grades, students demonstrated creativity, resilience, and confidence as they refined their communication skills and prepared for future assessments.

Ms. Madhavi Vinod, English Facilitator

Language Acquisition Holistic Excellence

July was a month of celebration, inspiration and remarkable achievements for our MYP learners. The month began with an atmosphere of enthusiasm as students actively participated in meaningful learning experiences both inside and outside the classroom.

A major highlight of the month was the Inter-School Hindi Competition held on 8th July, which brought together talented participants from various schools. The event provided a vibrant platform for students to showcase their linguistic abilities, creativity and confidence. Our students enthusiastically participated in different categories and presented their talents with great passion and dedication.

The presence of esteemed external judges added immense value to the event, as they appreciated the student's performances and shared constructive feedback that motivated every participant. The competition was filled with inspiring performances, fresh ideas and impressive expressions, making it a memorable celebration of the Hindi language and culture.

As the month progressed, students shifted their focus towards Summative Assessment 1 (SA-1). Regular revision sessions, engaging classroom activities and practice exercises helped them consolidate their understanding of the concepts covered during the term. Students approached their assessments with confidence and sincerity, reflecting their consistent efforts and commitment to learning.

Ms Jyoti Rathod , IB Hindi Facilitator

Language Acquisition Holistic Excellence

July was a month of rich cultural exploration, practical language application, and collaborative learning across all MYP Spanish classes.

MYP 1 students strengthened their foundational vocabulary by creating family tree projects to describe personal relationships. MYP 2 explored target-language traditions and presented creative Spanish festival calendars. MYP 3 stepped into the role of tour guides to showcase their research through interactive travel brochure presentations.

MYP 4 engaged in thoughtful discussions on the cultural significance of festivals and the deep relationship between traditional food and celebrations. MYP 5 explored global and social issues under the theme *"The World We Live In,"* analyzing how real-world challenges impact modern society.

Ms. Syamala Manikyam , Spanish Facilitator

Bastille Day Celebrations

Holistic Excellence

The Department of French celebrate Bastille Day (La Fête Nationale Française) on 14 July, 2026 with a vibrant assembly showcasing the richness of French language and culture. Students from the IB MYP, IBDP, and Cambridge International (CI) programmes presented a variety of performances, including French songs, poetry recitations, dances, instrumental music, presentations, and an interactive quiz. A highlight of the event was a powerful skit by the IBDP French B students, illustrating the values of Liberté, Égalité et Fraternité, the ideals of the French Revolution. Students also explored French gastronomy, art, and iconic monuments through informative presentations, while a French food stall added a delightful cultural experience. The celebration reflected students' creativity, collaboration, and enthusiasm, fostering a deeper appreciation of French language, heritage, and global citizenship.

Ms. Deepti Rokhade, French Facilitator

Individuals and Societies

Holistic Excellence

July was a month of engaging inquiry and meaningful discussions across all MYP grades in Individuals and Societies. MYP 1 students explored Significant Individuals as Global Citizens, discovering how influential people have shaped society through leadership, compassion, and responsible action. MYP 2 investigated Globalization and Gaming, examining how the gaming industry connects cultures, drives economic growth, and influences global interactions. MYP 3 began their study of the French Revolution, analyzing its causes, key events, and enduring impact on democracy, equality, and human rights

MYP 4 students explored the Silent Valley Movement and the Narmada Bachao Andolan, examining the balance between development, environmental conservation, and social justice. MYP 5 investigated World War II and the Cold War, analysing the forces that shaped the modern world. Across both grades, students enhanced their research, critical thinking, and communication skills while connecting historical events to contemporary global issues and responsible citizenship.

Ms. Shreya Das, I&S Facilitator

Sciences

Holistic Excellence

July was filled with engaging scientific inquiry, practical investigations, and collaborative learning across all MYP Science classes.

MYP 1 students strengthened their scientific investigation skills through planning, conducting, and evaluating experiments. MYP 2 explored mixtures, separation techniques, and acids and bases using STEM kits and laboratory activities. MYP 3 investigated the human circulatory system and presented research on cardiac diseases, enhancing their communication and analytical skills. MYP 4 examined cell structure, microscope techniques, and factors affecting photosynthesis through hands-on biology investigations. MYP 5 studied reproduction in plants and animals, deepening their understanding of reproductive health through inquiry and discussion.

Ms. Ratna Shalini, Science Facilitator

Mathematics

Holistic Excellence

In the July month we explored numbers and investigated different patterns in numbers like exponents, to learn the laws of exponents we investigated different examples and then created the laws, similarly we investigated and explored topics like scientific notations (Its importance and the method of writing any numbers using scientific notations).

While we learnt the concepts of Numbers, we focused on criteria A and B, that helped the students become a better researcher and get stronger at problem solving skills while they analyse the patterns.

Mr. Shakti Savarn, IB MYP Maths Facilitator

Extended Mathematics

Holistic Excellence

MYP Extended Mathematics encouraged students to think beyond procedures and develop a deeper understanding of mathematical concepts through inquiry and exploration. Learners investigated patterns, tested ideas, justified their reasoning, and solved complex problems with confidence. The programme emphasized conceptual understanding by encouraging students to explore the reasoning behind mathematical principles rather than simply applying formulas.

Through activities such as proving geometric relationships, modelling real-world situations, and analysing functions, students strengthened their critical thinking, problem-solving, and communication skills.

Students are also encouraged to persevere through challenges, reflect on their strategies, and view mistakes as opportunities for growth. By fostering curiosity, resilience, and independent thinking, Extended Mathematics prepares students with the skills and mindset needed for success in higher-level mathematics and lifelong learning.

Ms. Nafees Begum Shaikh, Maths facilitator

Arts: Visual Arts

Holistic Excellence

In the IB Visual Arts classroom, collaborative projects extend learning beyond technical art-making by nurturing communication, empathy, and shared responsibility. Students learn to respect different perspectives, distribute tasks fairly, support one another, and solve creative challenges as a team. For example, MYP4 Visual Arts students collaborated on a painting for Kargil Vijay Diwas, commemorating the courage and sacrifice of India's martyrs. While creating the artwork, they refined subject-specific skills such as composition, space allocation, shading techniques, and balancing visual elements to communicate meaning effectively. Together, they discovered that meaningful art is created not only through individual talent but also through collaboration and collective purpose.

Mr. Debendra Sahoo, *Visual Arts Facilitator*

Arts : Theatre

Holistic Excellence

This month, MYP 5 Theatre students explored **Postdramatic Theatre** by creating original performances inspired by a stimulus image. They developed thematic mind maps, wrote performance texts, and incorporated techniques such as fragmentation, musicalization, sensory engagement, and audience interaction. Students refined their scripts through individual feedback and researched postdramatic theatre theorists to strengthen their artistic choices. Taking on the dual roles of director and performer, they demonstrated creativity, independence, and reflective thinking throughout the process. This work forms a full mock **IB MYP Theatre ePortfolio**, allowing students to practise all four assessment criteria—research, creative development, performance, and reflection—while building confidence and preparing effectively for their final IB eAssessment.

Dr. Nagaraju Pejjai, IB Theatre Facilitator

PHE Holistic Excellence

Students explored the concepts of Sports Training and Anatomy & Kinesiology, developing their understanding of training principles, fitness components, and how the body's muscles and joints contribute to movement and sports performance. As part of their PHE learning journey, students also worked on their PHE ePortfolio and completed a SMART goal write-up, reflecting on their personal fitness aspirations and creating achievable plans to improve their health, fitness, and overall well-being.

Mr. Balwant Singh, PHE Facilitator

Design Holistic Excellence

The Design department has been actively engaging students across MYP 1–5 in developing creativity, computational thinking and problem-solving skills through a variety of hands-on learning experiences. Students are progressing from block-based coding in PictoBlox(MYP1), web development(MYP 2) to Python programming(MYP 3), while senior students are applying the design cycle through their ePortfolios. MYP 4 students are currently exploring the Design for Well-being unit and also participated in a Product Analysis activity using SWOT analysis to evaluate existing products and identify opportunities for improvement. MYP 5 students are developing innovative solutions as part of their Lifting Others Up unit. These learning experiences encourage innovation, critical thinking and the practical application of technology to create meaningful solutions.

Ms. Chandana Priya Kotha, Design facilitator

Music

Holistic Excellence

The MYP Music programme engaged students in developing creativity, performance, and appreciation for diverse musical traditions. MYP 1 explored the foundations of Indian and Western music through vocal activities and listening exercises, while MYP 2 composed original musical ideas by experimenting with melody, harmony, and timbre. MYP 3 investigated how musical patterns convey emotion and meaning through performance and reflection.

Students also showcased their talents during special assemblies and celebrations. World Music Day featured performances celebrating India's musical heritage, environmental awareness, and contemporary music. The MYP 3 assembly, *One World, Many Voices*, promoted resilience and self-belief through inspiring songs, while the MYP 4 assembly, *Lead From Where You Stand*, highlighted kindness, compassion, and leadership, encouraging students to create a positive impact within their communities.

Ms. Ezhilmathy, MYP Music facilitator

Dance Holistic Excellence

As part of Independence day, the students are learning a patriotic dance to be presented during independence day.

The environment day assembly took place, in which MYP 1-3 have performed about environment protection.

Ms. Srushti Nidhi, MYP Dance facilitator

Activities

Core Values

MYP 1, 2, and 3 students collaboratively created a Diversity Quilt to celebrate the uniqueness of every individual within our school community. Each learner designed a square that reflected their identity, culture, values, interests, or aspirations using meaningful colours, symbols, and words. When combined, the individual pieces formed a vibrant quilt, symbolising that while every person is different, together we create a stronger and more inclusive community. This creative activity encouraged self-expression, empathy, respect, and appreciation for diverse perspectives, reinforcing the importance of belonging, collaboration, and international-mindedness in the IB Middle Years Programme.

Dr.Sreelakshmi Buddharaju, IB MYP Activity lead

Student Council Elections

Global leadership

Empowering Student Voice and Leadership

The MYP Student Council Elections were conducted in multiple phases. Students enthusiastically nominated themselves, presented their manifestos, and campaigned responsibly, demonstrating confidence, leadership, and effective communication.

The election process encouraged students to experience the principles of democracy, fairness, accountability, and responsible decision-making. By participating as candidates and voters, students developed leadership, collaboration, and civic responsibility while learning the importance of respectful campaigning and ethical leadership.

Assemblies

Holistic Excellence

MYP Year 2 assembly explored the theme **“Resilience – Leading Through Failure”** through an engaging skit on Growth Mindset, with an interactive piece named “Who Am I?”, personality icebreakers, and meaningful connections to **SDG 4: Quality Education**. Students demonstrated the IB Learner Profile attributes of being **Open-minded, Caring, and Reflective**, highlighting how resilience, self-reflection, and continuous learning empower individuals to overcome challenges and grow as lifelong learners.

Assemblies

Holistic Excellence

The MYP 3 students presented a meaningful assembly titled "**One World, Many Voices,**" celebrating the beauty of diversity and the importance of global citizenship. Through thought-provoking speeches, a reflective poem, interactive quiz questions, they highlighted the value of empathy, respect, and inclusion in building stronger communities. The assembly encouraged everyone to appreciate different cultures, languages, and perspectives while embracing the IB Learner Profile attributes of being open-minded, caring, and communicative.

Assemblies

Holistic Excellence

On 20th July, the MYP4 students conducted an inspiring assembly on the theme **"Leadership Begins with Me."** The assembly emphasised that true leadership is not about holding a position but about making the right choices and leading by example. Students shared this message through the powerful quote, "A leader is one who knows the way, goes the way, and shows the way," a soulful performance of "Heal the World," the poem "The Leader Within," a skit titled "Leadership Begins with Me," and an inspiring presentation on Dr. A. P. J. Abdul Kalam. Through their thoughtful performances, the students encouraged everyone to recognise the leader within themselves and make a positive difference through their actions.

Sports Holistic Excellence

Inter-House Sports and Games

The Inter-House Sports and Games for the Middle and High School sections commenced in the month of July with great enthusiasm and team spirit. Students eagerly participated in various sporting events, showcasing their skills, determination, and sportsmanship. The competitions began on a spirited note, with all the houses displaying remarkable zeal and healthy competitive spirit, making the event an exciting and memorable experience for everyone.

Sports Holistic Excellence

ISSO Volleyball – International School Games, China

Our students proudly represented the school at the International School Sports Organisation (ISSO) Volleyball Tournament held in China. It was a matter of immense pride that our Head of Sports, Dr. Thomas, was selected as the International Coach for the India Volleyball Team participating in the International School Games. Accompanying him was our Volleyball Coach, Ms. Vijina, who also served as a coach for the team. Our students displayed exceptional sportsmanship, discipline, teamwork, and determination throughout the tournament. Their commendable performance and conduct brought great pride to the school and reflected our commitment to excellence in sports.

Ms. Zeba Bux, Sports Facilitator

Field Trips: MYP 4

Stakeholder engagement

Our MYP students experienced meaningful learning beyond the classroom through educational field trips that connected curriculum with real-world applications. MYP 4 students visited the **Telangana Forest Academy**, where they gained valuable insights into biodiversity, forest conservation, sustainable resource management, and the importance of protecting natural ecosystems.

Field Trips: MYP 5 Stakeholder Engagement

MYP 5 students visited the **Professor Jayashankar Telangana State Agricultural University**, where they explored modern agricultural research and learned about DNA analysis in plants. These enriching experiences fostered curiosity, critical thinking, and scientific inquiry while encouraging students to appreciate the role of environmental conservation and innovation in addressing global challenges.

Professional Development for teachers

Mindfulness and Wellbeing

A professional development session on **Grooming and Presentation** was conducted by Ms. Vijaya Madhavi for teachers to enhance professional presence and effective communication in the classroom. The session focused on personal grooming, professional etiquette, body language, dress code, and confident presentation skills.

Teachers gained practical strategies for creating positive first impressions, fostering meaningful interactions during PTMs, and reflecting the school's values through their professional conduct. The interactive session encouraged self-reflection and reinforced the importance of professionalism in building a positive learning environment.

ILD

Mindfulness and Well-Being

Wellbeing Session- "Resilience and Healthy Coping Mechanisms."

On 14 July 2026, the Student Counsellor conducted a wellbeing session for MYP 2 students on **"Resilience and Healthy Coping Mechanisms."** Through interactive discussions, reflective activities, mindfulness practice, and a resilience module, students explored practical strategies to manage stress, build emotional awareness, identify personal strengths, and develop positive coping skills, reinforcing their social-emotional wellbeing.

Wellbeing Session- MYP Y 1-5- Students transiting from abroad Students Session

On 9 July 2026, the Student Counsellor conducted a transition support session for new MYP students from abroad, promoting belonging, confidence, emotional wellbeing, and social integration through interactive activities, reflection, and peer connection.

Stephen Covey's Seven Habits Session MYP Y 1 C & D sections

The Student Counsellor conducted a **Seven Habits** session for MYP 1 C & D students on **Habit 1: Be Proactive**, using interactive activities to promote responsibility, resilience, emotional regulation, and positive decision-making.

Dr. Bornali Yadav, Student Counselor

ATL Session

Holistic Excellence

A professional learning session on ATL Planning and designing ATL-aligned task sheets empowered teachers to intentionally integrate Approaches to Learning (ATL) skills into classroom practice. The session explored practical strategies for balancing implicit and explicit opportunities for skill development, enabling educators to design learning experiences that make ATL purposeful, visible, and transferable.

Dr. Preeti Dhankar, ATL Co-ordinator

Youth Parliament Global Leadership

Nurturing Future Leaders

The Individuals & Societies Department successfully conducted a Youth Parliament for MYP Years 1, 2, and 3, providing students with an engaging platform to experience the values of democracy, leadership, and responsible citizenship. The event was entirely organized by the DP2 Global Politics students as part of their CAS (Creativity, Activity, Service) project, showcasing their initiative, teamwork, and leadership.

The younger students participated enthusiastically, taking on parliamentary roles, presenting well-reasoned arguments, and engaging in thoughtful discussions on contemporary issues.

Ms. Sruthi Mididhem, I&S Facilitator

Boarding

Freshers' Day was joyfully celebrated in the boarding house, warmly welcoming our new boarders and helping them feel at home through fun activities, interactive games, and opportunities to build new friendships.

Agastya Gadapa from MYP 5C has won in the district's swimming competition. Agastya won in 50m , 100m and 200m Breaststroke silver medal.

Sloka Mungi from MYP 2D and **Rudra Poojari** from MYP 3D have successfully completed a high Altitude Himalayan Trek above 11000 feet. They also did experiential learning activities there.
