

Launch Lab 2026

GRAPHIC DESIGN — **GRADE 6** (CBSE, CIE & MYP)

Unleash your creativity and share your ideas through visual storytelling!

Graphic design is the art of blending creativity and communication—using typography, imagery, colour, and space to solve problems and convey messages effectively.

About the Challenge

A day before the event, all teams will be given a theme. The teams are not allowed to create their project a day before; it is only for ideation purposes. Teams must read the scenario carefully and develop a graphic design solution that addresses it — this is the design challenge you will be judged on.

The final design must be submitted in the required format, along with the original software files, and presented to the judging panel.

Awards

- Grand Champion
- Most Creative Design
- Excellence in Graphic Design

Event Details

- Team Size: 3 – 5 Members
- Duration: 4 hours
- Date of the Event: 20 August (Thursday)

GRAPHIC DESIGN — **GRADE 6** (CBSE, CIE & MYP)

Judging Criteria

Criteria	What the Panel is Looking For?	Weight
SDG Relevance & Message Clarity	How clearly and meaningfully the design connects to the given scenario/SDG theme, and how instantly its core message is understood at a glance.	30%
Creativity & Originality	Inventiveness of the concept — a fresh visual idea that avoids clichés and stock imagery, showing genuine imaginative thinking.	25%
Problem-Solving Fit	How effectively the design applies visual design thinking to solve the scenario as a real communication problem, not just decorate it.	25%
Visual Execution & Clarity	Craftsmanship of the final piece — composition, typography, colour harmony, and placement of icons/images/text that make the design clean, readable and polished.	20%

Judging & Viva Criteria Interactive Q&A Session: Judges will ask you live questions during evaluation, separate from what is written in your explanation sheet.
