

MYP -1 Term 1 Syllabus Focus 2026-2027

September 2026

Date	Day	Time	Subject
29-09-2026	Tuesday	9.30 -11.00 am	English Language and Literature
30-09-2026	Wednesday	Preparatory Holiday	
1-10-2026	Thursday	9.30 -11.00 am	Mathematics
2-10-26	Friday	Preparatory Holiday	
3-10-26	Saturday	Preparatory Holiday	
5-10-2026	Monday	9.30 -11.00 am	Integrated Sciences
6-10-2026	Tuesday	Preparatory Holiday	
7-10-2026	Wednesday	9.30 -11.00 am	Language Acquisition
8-10-2026	Thursday	Preparatory Holiday	
9-10-2026	Friday	9.30 -11.00 am	Individuals & Societies

Note :1.e portfolio subjects to be completed during the class hours and in Managebac.

2.Orals for Language Acquisition will be conducted during class hours

S.No	Subject	Syllabus	Maximum Marks and Criteria
1	Group 1: Language and literature (English)	Unit-1-Myths and Legends • Story writing • narrative techniques • plot pyramid • characterisation • significance of myths and legends Unit-2-Pitch perfect-Art of persuasion • Advertisements • Types of advertisements • Jingles-poetry in advertisements • Slogans in advertisements	Maximum marks:50 Criteria-C-Producing text Criteria-D-Using language Criterion-A-Analyzing Criterion-B-Organizing
2	Group 2: Language acquisition (French)	Unit 1: Self, family, friends 1. Greetings & Introductions, 2. Types of family, Family and Relationships, 3. Physical and Character Descriptions, 4. Leisure Time- Hobbies and activities 5. Different professions Grammar 1. Basic verbs (present tense) 2. Expressions with Jouer and Faire 3. Possessive adjectives 4. Adjectives of description 5. articles- definite and indefinite 6. Gender Writing task: Postcard Unit 2: House and home 1. Parts of the House, 2. Objects in the house 3. Types of the house 4. Description of a house Grammar: 1. There is /There are 2. Prepositions of place	Criterion A: Listening Criterion B: Reading Criterion C: Speaking Criterion D: Writing Total Marks:- 50

		Writing task: Blog	
3	Group 2: Language acquisition (Hindi)	Unit 1: Self, Family and Friends 1. Greetings & Introductions, 2. Types of family, Family and Relationships 3. Physical and Character Descriptions, 4. Leisure Time - Hobbies and Activities 5. Different professions Grammar 1. Tense (काल) 2. Varn-vichched (वर्ण-विच्छेद) 3. Sentence formation (वाक्य संरचना) 4. Gender (लिंग) 5. There is / There are (है और हैं का प्रयोग) 6. In/I (में और मैं का प्रयोग) Text type:- 1. Informal letter writing Unit 2: House and home 1. Parts of the House, 2. Objects in the house 3. Types of the house 4. Description of a house Grammar 1. Case (कारक चिह्न) 2. Tense (काल) 3. Sentence formation (वाक्य संरचना) Text type:- 1. Dairy writing	Criterion A: Listening Criterion B: Reading Criterion C: Speaking Criterion D: Writing Total Marks:- 50
4	Group 2: Language acquisition (Spanish)	Unit 1: Self, family, friends 1. Greetings & Introductions, 2. Types of family, Family and Relationships, 3. Physical and Character Descriptions, 4. Leisure Time- Hobbies and activities 5. Different professions <u>Grammar</u>	Criterion A: Listening Criterion B: Reading Criterion C: Speaking Criterion D: Writing

		1. Basic verbs (present tense) 2. Expressions with Jugar y Hacer 3. Possessive adjectives 4. Adjectives of description 5. articles- definite and indefinite 6. Gender <u>Writing task:</u> Postcard Unit 2: House and home 1. Parts of the House, 2. Objects in the house 3. Types of the house 4. Description of a house <u>Grammar:</u> 1. There is /There are 2. Prepositions of place <u>Writing task:</u> Blog	Total Marks : 50
5	Group 3: Individual and societies	Unit 1: What does it mean to be a global citizen? ● Meaning of global citizen ● Major issues facing the world and its solutions ● Plastic waste ● Deforestation ● Historical and modern examples of global citizens (e.g., Malala Yousafzai, Greta Thunberg, Wangari Maathai) ● Cause and impact of plastic pollution - Case study: The Great Garbage Patch. ● Comment on the role of individuals in changing the world. ● Suggest some measures to tackle plastic pollution. Unit 2: Where do we live? ● What is a settlement? ● Difference between a site and a settlement ● How and why people live together in settlements ● Types of settlements (hamlet, village, town, city, megacity) ● Urbanization and its impacts	Criterion A- Knowing and Understanding Criteria B- Investigating Criterion C - Communicating Criteria D-Thinking Critically Total Marks : 50

		● Sustainable development in urban planning ● Eco-friendly infrastructure (green buildings, waste management, renewable energy) ● How settlement design reflects cultural identity	
6	Group 4: Sciences (Integrated)	Unit-1 What do scientists do ? ● Measurement Skills-Estimating measurements, Rounding numbers ● Precision vs Accuracy ● SI Units: Length (meter), Mass (kilogram), Time (second), Temperature (kelvin/°C), Volume (liter) ● Understanding Scientific Environments-Lab vs Classroom, Lab safety basics, Sustainable scientific practices ● Scientific Investigation Skills What is an experiment?, Identifying variables:, Formulating: Research Question, Hypothesis ● Data Representation Using tables, Using graphs, Drawing speed-time graphs, Interpreting data Unit 2 What changes (Matter and Materials) ● Particle model. ● States of matter and their characteristics ● Properties of states of matter. ● Physical and chemical changes (definition with one example); ● Interconversion of states of matter	Total Marks : 50 Criteria A – Knowing and Understanding Criteria B – Inquiring and Designing Criteria C – Processing and Evaluating Criteria D – Reflecting on the Impacts of Science
7	Group 5: Mathematics	Unit 1: Numerical Reasoning ● Natural, Whole, Integers, Integers on Number line. ● Fractions & Decimals ● Basic Profit & loss ● Commutative, Associative, Distributive, Identity Properties	Total Marks : 50 Criteria A,B,C and D

		• Factors & Multiples. • Prime Numbers. • Prime Factorization • LCM & HCF of 2 numbers • BODMAS rule. • Addition, Subtraction of Fraction & Decimal. • Simplification of fractions. • Intro to Ratio and Proportion • Writing numbers in exponent Notations. • Understanding square numbers & cubes • Understanding square roots • Basic Cube roots • Rounding off numbers-2 & 3 decimal places. Unit 2: Reasoning with data • Introduction to data: what is data? • Types of data: discrete vs continuous. • Sorting data into categories (Classification using frequency tables • Design simple surveys using closed-ended questions. • Understand sample vs population. • Collect own data through observation/surveys • Draw and interpret: Bar charts. Pictograms. Histogram Line plots. • Identify elements of infographics (charts, icons, labels). • Interpret visual data (Basics). • Understand and calculate: Mean, Median & Mode (for small data sets) • Measure of Dispersion • Understand and calculate range. • Interpret data with range calculations. • Understand chance and likelihood using words (impossible, likely, certain). • Understanding basic terminologies in probability (Experiment, Event, Sample space, Trial, Outcome, Random Experiment). • Simple real-life examples (dice, coins, spinners)	
8	Group 6: Arts	Visual Arts: Unit-1: Identity Unveiled – A Journey through Shape, Form, Texture, and Colour-	Criterion A: Investigation

	Investigate Warli Art, its visual language and connection to identity and cultural expression. • Explore Warli figures, shapes, patterns and composition through sketches and practical activities. • Develop "My Creative Identity" through original Warli artwork connected to personal ideas and experiences. • Apply elements of art and Warli techniques to communicate identity and expression. • Reflect on artistic choices, skills and the development of the final artwork. Performing Arts: Music-Vocal/Guitar/Drums Unit 1: Exploring Indian and Western Music Practical sessions where students learn and practice techniques from both Indian and Western musical traditions, culminating in the preparation of their collaborative performance. Introduction to Vocal Music-Students learn to identify and produce sounds with their voices. -They learn about vocal technique and explore the origins of various music cultures, including Indian and World Music. Elements of music 1. Pitch 2. Rhythm 3. Scales 4. Frequencies 5. Tempo Unit 2: Musical notes-The Beginning Primary vocal performance-Understanding Tone and Pitch: -Students learn to identify and understand various elements of vocal music such as tone, pitch, timbre, and dynamics. -They will also develop basic vocal techniques to practice in order to improve their singing	Criterion B: Developing Criterion C: Creating Criterion D: Responding Criterion A: Investigating Criterion B: Developing Criterion C: Creating/Performing Criterion D: Evaluating
	Keyboard: • • Music Theory Fundamentals • Major and Minor Scales • Scale Patterns and Intervals • Chords and Chord Building • Keyboard Skills and Technique	

		• Musical Expression and Mood • Composition and Improvisation • Performance Skills	
		Dance: Unit 1: Stars on Stage: Enacting Dance Performance Knowledge: • Elements of dance (body, space, time, energy) • Basics of Indian classical dance forms (Kuchipudi, Bharatanatyam, Mohiniattam, Manipuri) • Dance composition and structure • Physical fitness components (balance, flexibility, speed) Conceptual Understanding: • Composition changes meaning • Dance communicates identity and cultural expression • Movement choices influence audience interpretation Skills: • Body coordination and control • Balance, flexibility, and rhythm • Expressive movement and facial expression • Creating and modifying choreography • Performance readiness	Criterion A – Investigating Criterion B – Developing Criterion C – Performing Criterion D – Evaluating
9	Group 7: Physical, Health and Education	UNIT-1 Sports Training (cardiovascular endurance) A. Fitness Components B. Training methods Introduction to skill related fitness components, types of fitness components. C. Applications of fitness components. D. Methods of training- Introduction to various methods of training, E. Principles of training F. Benefits of specific training methods. UNIT-2 Aerobics 1. What do you mean by Aesthetic Movement? 2. What is Aerobics? 3. What is the history of Aerobics? 4. What are the types of Aerobics? 5. What are the elements of Aerobics? 6. What are the benefits and drawbacks of Aerobics? 7. Step Aerobics, Sports Aerobics, Aerobics Dance	CRI-A - Knowing and understanding CRI-B - Planning for performance CRI-C-Applying and performing CRI-D- Reflecting and improving performance

10	Group 8: Design	Unit-1: Designing for Interaction ● Identify a design problem, understand user needs, and analyse existing interactive digital products. ● Develop success criteria, generate feasible design ideas, and create algorithms/flowcharts to plan the solution. ● Create and develop an interactive digital solution using the design process. ● Test, evaluate, and suggest improvements to the solution based on user feedback. ● Learn the PictoBlox interface, block categories, sequencing, input/output, variables, and operators. ● Apply conditional statements and programming concepts to create, test, debug, and improve an interactive digital project.	Criterion A: Inquiring and Analysing Criterion B: Developing Ideas Criterion C: Creating the Solution Criterion D: Evaluating
