

Letter-Writing Task: "Sustainable Cities Are the Future"

Task

Imagine that you are a young resident of a rapidly growing city. You have noticed problems such as traffic congestion, air pollution, increasing waste, shortage of green spaces and pressure on water resources.

Write a letter to the Mayor of your city explaining why sustainable cities are important for the future.

In your letter, you should:

1. Describe two problems caused by rapid urban growth.
2. Explain how these problems affect people and the environment.
3. Suggest at least three ways in which your city could become more sustainable.
4. Explain how these solutions could improve the quality of life of people living in the city.

Length: 200-250 words

Suggested command terms: *Describe, Explain, Suggest*

Suggested Letter Format

Sender's Address

Date

Respected Mayor,

Subject

Paragraph 1 – Introduction

Introduce yourself and explain why you are writing.

Paragraph 2 – Problems

Describe two problems faced by rapidly growing cities and explain their impacts.

Paragraph 3 – Solutions

Suggest practical ways to make the city more sustainable, such as:

- better public transport
- renewable energy
- recycling and waste management
- more parks and green spaces
- water conservation

- cycling and walking infrastructure

Paragraph 4 – Conclusion

Explain why making cities sustainable is important for future generations.

Yours sincerely,

Name

MYP 1 Success Criteria

Students should be able to:

- Use appropriate geographical/settlement vocabulary.
- Clearly explain the relationship between urban growth and environmental problems.
- Give realistic and relevant solutions.
- Explain how sustainable solutions benefit people and the environment.
- Present ideas in a clear formal letter structure.
