Message from the Head of School

Dear Parents,

Over the past few weeks, our school held a series of assemblies exploring an important theme: how love for one's own country can coexist with a genuine, open-minded outlook toward the wider world.

Students took part in structured debates, presenting reasoned arguments on both sides of questions like "Can national pride and global cooperation go hand in hand?" The discussions were moderated to keep them respectful and balanced, ensuring students learned to think critically rather than simply take sides.

Our aim wasn't to tell students what to believe, but to help them listen well, argue fairly, and hold complex ideas with maturity – skills that will serve them well beyond the classroom.

In the month of August, as we celebrated our 80th Independence Day with national pride and patriotic fervour, we deliberated that core values such as gratitude, respect, integrity, perseverance and empathy do not stop at political borders between nations. Students very cogently argued that the problems of Climate change, worldwide pandemics, pollution and other global issues had to be resolved with a global mindset.

However, they weighed the importance of national identity and cultural dignity as the first step towards 'Vasudhaiva Kutumbakam'.

The two day TGSMUN further added to sustained deliberations on negotiated peace as a critical need for the present and the future.

We encourage you to keep the conversations going at home. Let us together nurture open-minded, caring and balanced citizens.

Thank you

Sudeshna Chatterjee
Head of School

MYP Coordinator's Message

Pedagogy in Action: Empowering Future-Ready Learners in the IB MYP at The Gaudium

Dear Students and Parents,

At **The Gaudium School**, pedagogy in the IB Middle Years Programme is centred on creating meaningful, student-driven learning experiences that nurture curiosity, independence, confidence, and a lifelong love for learning. **Inquiry-based teaching and learning** is embedded across the MYP, encouraging students to ask questions, investigate, make connections, and construct their own understanding. The **enhanced MYP pedagogy is implemented in MYP 1-3**, providing students with opportunities to learn through exploration, experimentation, reflection, and real-world application.

Inclusion is an integral part of our practice across all grades, ensuring that diverse learning needs are recognised and supported. **Personalised teaching and individualised learning** enable teachers to understand each learner's strengths, needs, and areas for growth. Teachers proactively communicate with parents when students are not demonstrating their full academic potential, working collaboratively to identify areas for improvement and provide appropriate support.

Professional Development (PD) sessions are conducted periodically to strengthen pedagogical practices, share best practices, and continually enhance teaching strategies. Students requiring additional academic support are provided with **remedial sessions** to address learning gaps and build confidence.

Learning extends well beyond the classroom through **monthly assemblies**, where students explore diverse themes, develop communication and leadership skills, and take ownership of their learning.

MYP Coordinator's Message

Master Classes in varied topics like Science & innovation, Space, Design & Coding, App design and Young Entrepreneur provide opportunities to interact with varied subject experts, and perspectives beyond regular classroom discussions.

Design Challenge programmes and Hackathons further encourage students to innovate, collaborate, solve authentic problems, and gain an insight into real-world and industrial experiences. **Koutuka – The Gaudium Science Exhibition** provides a platform for students to transform classroom learning into real-world applications through diverse themes, exhibitions, and panel discussions involving students and experts from relevant fields.

Overall, these diverse learning opportunities in MYP empower students to become **confident, creative, reflective, and future-ready learners**, while remaining strongly aligned with the **IB Mission and The Gaudium School's vision of nurturing confident, compassionate, and responsible global citizens**.

Wishing every student a happy and Joyful learning.

Dr. K. Padmaja
MYP Coordinator

Associate Coordinator's Message

August was a vibrant and engaging month for our MYP students, marked by meaningful learning experiences and joyful celebrations. The Independence Day celebrations brought out the students' enthusiasm, creativity, and patriotic spirit.

Students actively participated in a variety of events and activities, showcasing their talents and confidence. Alongside these celebrations, they remained committed to their academic learning and classroom experiences.

The month reflected a wonderful balance of academics, creativity, collaboration, and participation.

We are proud of our students for embracing every opportunity to learn, contribute, and grow as responsible young learners.

Ms. Sunita Velamati
Associate MYP Coordinator

Core in MYP: Community Engagement Holistic Excellence

August began with students reflecting on the **Kargil Courage** event held on 31 July. Students looked back at their learning, conversations, and the importance of listening to the experiences of others.

Over the next two weeks, we explored **World Humanitarian Day (19 August)** through a Community Engagement activity. Students discussed what humanitarian work means and explored the difference between simply helping someone and providing help that is meaningful, informed, and respectful. The activity encouraged students to think about who is affected by a problem, who helps, and what challenges they may face.

Students also reflected on their own ideas about helping others and considered how young people can contribute. They explored small, realistic actions they could take and how these actions can create a positive impact when they are based on understanding and **principled action**.

Mr. Shakti Savarn, Community Engagement Coordinator

Core in MYP: Community Engagement Holistic Excellence

On **10th August**, **MYP5 students** participated in a session on **Criterion B of the MYP Personal Project**, conducted by the **PP Coordinator**, to understand its requirements, expectations, and assessment criteria. The session focused on developing and documenting an action plan, managing time effectively, and demonstrating the skills used throughout the process. Students were also guided through the **Personal Project timeline**, including key deadlines and requirements for uploading their work and evidence on ManageBac.

The session developed IB Learner Profile attributes such as **Principled, Reflective, and Knowledgeable**. It strengthened ATL skills, particularly **self-management, research, communication, and organisation**. These skills will help students monitor their progress, maintain organised evidence, meet deadlines, and complete **Criterion B and the Personal Project independently and effectively**.

Ms. Gayatri Meena , Personal Project Coordinator

Reflection by Harshika Mekala of MYP5C

Personal Project Citation and Research Skills Session

On **17 August 2026**, we participated in a session led by **Mr. Arumugam Sir, our school librarian**, on the importance of citing sources and developing effective research skills for our **MYP Personal Project**. During the session, we learned how to use **in-text citations** and create a **Works Cited list using MLA 9 format**. We understood that proper citation gives credit to original authors, helps prevent plagiarism, and increases the credibility and reliability of our research.

We also learned about the importance of using **primary sources** to obtain stronger and more reliable evidence to support our ideas and conclusions. The session introduced us to useful academic research platforms such as **DOAJ.org** and **JSTOR.org**, which can help us access credible scholarly information for our Personal Project.

The session helped us develop important **IB Learner Profile attributes**, particularly being **Principled, Inquirers, Knowledgeable, and Reflective**. We became more aware of the responsibility of acknowledging the work of others and using information ethically. It also strengthened our **ATL skills**, especially **research, information literacy, communication, and self-management skills**.

These skills will directly support my Personal Project by helping me **conduct independent and purposeful research, evaluate the credibility of sources, organise information effectively, and acknowledge sources accurately**. Overall, the session has helped me understand that responsible research and academic honesty are essential for producing a credible and meaningful Personal Project.

Language and Literature Holistic Excellence

MYP English Language and Literature learners are becoming confident explorers of language, literature and communication. As **"Advertisement Detectives,"** they analyzed advertisements by exploring purpose, audience, visual elements and persuasive techniques. Through **"Voices of History,"** they examined speeches, persuasive writing and language choices, understanding how communication influences audiences.

Learners also explored poetry and literature, analyzing imagery, symbolism, tone, structure and language. Creative projects such as **shape poems** encouraged them to make purposeful choices about form, presentation and expression.

MYP 4 dealt with analyzing various non-literary texts ranging from blog posts to magazine covers and many more.

Ms. Sumi Gohain, English Facilitator

Language Acquisition (French)

Holistic Excellence

French language learners participated in an engaging activity on « **Les habitudes saines** » (**Healthy Habits**), developing their communication skills while exploring healthy lifestyle choices. Students researched topics such as balanced diets, hydration, exercise, sleep, personal hygiene and reducing screen time. They created informative and visually appealing PowerPoint presentations and confidently presented them in French to their classmates. The activity strengthened vocabulary related to health, routines and well-being while developing research, creativity, organisation, communication and public-speaking skills. It also encouraged students to reflect on their lifestyle choices and make responsible decisions for their physical and emotional well-being, making the experience both meaningful and enriching.

Mr. Santosh Kumar, French Facilitator

Language Acquisition (Spanish)

Holistic Excellence

Personal Profile Writing – Mi Madre / Mi Padre, creating profiles of a parent in Spanish. They included details such as name, age, occupation, personality, hobbies, likes and dislikes. The activity strengthened vocabulary and writing skills while encouraging personal expression.

MYP 2: Students embarked on **“A Culinary Journey in Spanish”** by designing authentic Spanish restaurant menus (*Cartas de restaurante*). They created multi-course menus featuring *tapas*, *entrantes*, *platos principales*, *postres* and *bebidas*, while practising food vocabulary, prices, grammar and ordering expressions. The activity also encouraged creativity and appreciation of Spanish-speaking cultures.

Ms. Syamala Manikyam , Spanish Facilitator

Language Acquisition (Hindi)

Holistic Excellence

The month began on a wonderful note with our MYP 1 students presenting a meaningful class assembly based on the themes of Patriotism and International-Mindedness. Through a thoughtful skit, students beautifully conveyed the message of “वसुधैव कुटुम्बकम्” (Vasudhaiva Kutumbakam -The World is One Family), highlighting the values of unity, respect, harmony and understanding.

As part of Unit 2, MYP students have been engaged in a variety of creative, collaborative and inquiry-based learning activities. MYP 1 students explored the theme of House and Home by creating different types of houses and describing their homes in Hindi. MYP 2 students explored Food and Beverages through group activities, poster-making and PowerPoint presentations, sharing their learning and ideas related to the unit. MYP 3 students explored School Life through group discussions and case studies based on school rules and responsibilities. They discussed different situations, expressed their opinions and shared their perspectives with the class. MYP 4 students explored Travel and Tourism through a travel-planning activity, where they presented key information about a destination, including its attractions, culture and food. The activity helped them develop their communication and presentation skills in Hindi.

These activities provided students with opportunities to develop their communication, collaboration, creativity and critical-thinking skills, while using Hindi in meaningful and engaging contexts.

Ms. Jyoti Rathod, Hindi Facilitator

Individuals and Societies

Holistic Excellence

August was a month of deep inquiry and geographic and historical exploration across all MYP grades in Individuals and Societies.

MYP 1 students investigated the fundamental question of "Where do we live?" as they explored Settlements, analyzing settlement patterns, functions, and the distinct characteristics that define different types of communities. MYP 2 embarked on a journey through Exploration and Global Interactions, tracing the impacts of the historical Age of Exploration and the Columbian Exchange through to modern space exploration. MYP 3 turned their focus to World Development, measuring and evaluating the development stages of various countries using key global indicators like the Human Development Index (HDI).

MYP 4 examined global dynamics by analyzing World Population trends through the lens of Demographic Transition Models to understand demographic shifts over time. Meanwhile, MYP 5 investigated the Evolution of the Industrial Revolution in Britain, analyzing the technological, economic, and societal shifts that laid the foundation for the modern industrialized world. Across all grades, students continued to build their spatial awareness, historical analysis, and critical thinking skills, drawing vital connections between spatial systems, historical turning points, and modern global trends.

Ms. R. Vaishali, I&S Facilitator

Holistic Excellence - Sciences

MYP 2 explored the **electromagnetic spectrum and properties of light**, including reflection, refraction, and dispersion. They also investigated the structure of the eye and how the brain interprets visual information.

MYP 3 delved into the **human excretory system**, exploring renal health and designing investigations to study factors affecting the rate of excretion.

MYP 4 explored **biomolecules and the human digestive system**, including digestive enzymes, deficiency diseases, and disorders. During their **biology laboratory visit**, students conducted food tests and investigated factors affecting enzyme activity. In chemistry students observed **separation techniques**. They themselves chose the separation methods to separate the mixture of chalk powder and salt.

Sciences

Holistic Excellence

In physics students performed hands-on activity to demonstrate **Newton's laws**. They have shown various examples of inertia, Newton's second law and third law. **MYP 5** students researched various **theories on the origin of life** and explored **Darwin's theory of evolution**, with a focus on **natural selection and selective breeding**.

In chemistry students experienced the **electrochemical cell setup** by using zinc rod, copper rod in their electrolytic solutions. They observed the effect of dilution on the voltage of electrochemical cell. Across all grades, August fostered curiosity, critical thinking, and scientific inquiry through practical investigations, laboratory experiences, and collaborative learning.

Ms. Neeti Grover, Science Facilitator

Mathematics

Holistic Excellence

MYP 1 students explored data collection through surveys, organising raw data, selecting appropriate representations, and using sample spaces and experiments to draw conclusions. **MYP 2** students represented and interpreted data using histograms and measures of central tendency. They also explored experimental and theoretical probability, comparing experimental results with predictions. **MYP 3** students investigated cumulative frequency graphs and measures of dispersion, including interquartile range. Box plots helped them compare and interpret data spread. **MYP 4** students explored quartiles, percentiles and skewness to understand data distribution. They also used scatterplots to identify patterns, relationships and associations between variables.

Ms. Puneet Tiwari, Maths Facilitator

Holistic Excellence

Arts: Visual Arts

Building Foundations for Creative Inquiry

The MYP Visual Arts programme continued with students progressing from investigation to developing their artistic criteria, building on their research and understanding of their respective units. MYP 1 students completed their Investigation Task for Identity Unveiled: A Journey through Shape, Form, Texture and Colour. They explored Warli Art, identity, and the elements of art, and developed criteria considering shape, form, texture, colour, symbolism, and composition to guide their upcoming artwork. MYP 2 students completed their Investigation Task for Modernist Art Movements & Cubist Sculpture. They explored Impressionism through rough sketches and exploratory studies, experimenting with oil pastels, watercolours, poster colours, pencil, and pencil colours to investigate colour, texture, light, and mark-making. They then developed criteria based on their understanding of Impressionist techniques and visual elements, preparing for the next stage of their creative process. The month marked a meaningful transition from research and investigation to purposeful artistic planning, encouraging students to make informed creative decisions and take ownership of their artistic journey.

Mr.Somnath Ghoshal, Visual Arts Facilitator

PHE

Holistic Excellence

Personal Fitness Analysis and Reflection

As part of the PHE curriculum, MYP students engaged in a Personal Fitness Analysis to assess their fitness levels and build awareness for lifelong health.

Activities such as push-ups, sit-ups, and wall sits allowed students to gauge their strength and endurance levels in different muscle groups. These tests not only provided students with personalized data but also encouraged reflection on their physical strengths and areas for improvement.

This personal fitness analysis is part of our ongoing effort to empower students with the skills and knowledge needed to lead healthy, active lives. It also ties into the IB MYP's Approaches to Learning (ATL) skills by promoting self-management, reflection, and critical thinking.

Mr. Balwant Singh , PHE Facilitator

Design Holistic Excellence

The Design Department has had an engaging and productive month with students across **MYP 1-5** making strong progress in **Criterion B: Developing Ideas**. Students in **MYP 1-3** completed their Criterion B tasks through ManageBac, developing and selecting feasible design ideas before moving towards the creation stage. **MYP 4 and 5** students continued working on their **e-Portfolios**, documenting their design thinking, decision-making, and development process while refining their ideas into meaningful design solutions.

Adding to the excitement, students from **Design** participated in **Launch Lab 2026 – Design Masters**, a House-wise competition that encouraged creativity, innovation, collaboration and problem-solving. The theme was revealed just **one day prior to the competition**, challenging students to think creatively and respond confidently. **MYP 1 students explored Graphic Design, MYP 2 students worked on Game Design, and MYP 3 students explored App Design and 3D Modelling**. The event provided an excellent opportunity for students to apply their skills beyond the classroom while demonstrating teamwork, creativity, technical expertise, and adaptability.

Ms. Chandana Priya, Design Facilitator

Music

Holistic Excellence

Music and Patriotism:

On 31 July, MYP 1–4 music students participated in Kargil Divas assembly through patriotic songs, expressing gratitude and respect for the sacrifices of our armed forces. MYP 1 continued this spirit by performing patriotic songs during the assembly on 5 August. On 13 August, MYP 2 presented patriotic songs as part of the assembly on the theme, “This House Believes Young People Identify More as Global Citizens than as Citizens of Their Own Country.” The performance encouraged students to explore the relationship between music, identity, citizenship and belonging.

MYP 1 – Musical Notes: The Beginning:

Students are building their musical foundations by exploring tone, pitch, timbre and dynamics, while developing confidence in vocal performance. **MYP 2 – Exploring Musical Styles:** Students are discovering diverse genres including Pop, Carnatic Classical, Western Classical, Electronic and World Music, developing critical listening skills and appreciation of musical diversity. **MYP 3 – Understanding Film Music:** Students are exploring how music communicates emotions and enhances film scenes through the thoughtful selection of instruments, sounds and musical elements.

Ms. Ezhilmathy, MYP Music facilitator

Dance

Holistic Excellence

The MYP students enthusiastically participated in the Independence Day celebrations, presenting a vibrant medley of patriotic songs through a blend of Western and Indian folk dance styles. Their energetic performances beautifully reflected the spirit of freedom, unity, and pride in our nation.

As part of the MUN Inaugural Ceremony, the MYP1 students presented a thought-provoking contemporary dance performance based on the theme of "War and Peace," inspired by the life and transformation of Emperor Ashoka. Through movement, music, and expression, the performance portrayed the transformation from the devastation of war to the hope and harmony of peace, highlighting the importance of choosing peace and understanding over conflict.

Ms. Srushti Nidhi, MYP Dance facilitator

Theatre Holistic Excellence

In the month of August, MYP 5 Theatre students have successfully completed Criterion A of their ePortfolio, where they investigated Postdramatic Theatre and analysed contemporary performances. Building on this foundation, students are now actively working on Criterion B, focusing on developing their own performance. They are using their earlier research and understanding of postdramatic concepts to explore ideas practically and shape their artistic intentions. At this stage, students are experimenting with movement, voice, space, and structure to create meaningful performance pieces. This process encourages them to think creatively, make informed artistic decisions, and connect their ideas to the Statement of Inquiry. Through this transition from research to creation, students are preparing themselves to become independent theatre-makers, ready for their final ePortfolio performance in the coming term.

Dr. Nagaraju Pejjai, IB Theatre Facilitator

Activity

Holistic Excellence

Swarajya Canvas

Students enthusiastically participated in the Inter-House Canvas Painting Competition – “Swarajya Canvas,” a vibrant celebration of creativity, patriotism, and artistic expression. The event provided young artists with an opportunity to express their understanding of Swarajya. Representing their respective houses, students transformed blank canvases into meaningful works of art depicting India’s journey, cultural heritage, unity, freedom, and aspirations for the future. The competition encouraged students to collaborate, think creatively, communicate through visual art, and appreciate diverse viewpoints.

Dr.Sreelakshmi Buddharaju, IB MYP Activity lead

ILD

Mindfulness and Well-Being

On **13 August 2026**, the **ILD Team** conducted an interactive session, **"Where Are the Boundaries?"**, for MYP 3 students, focusing on respect, personal boundaries, and responsible choices. Students explored appropriate physical touch, communicating boundaries verbally and physically, respecting personal space, and avoiding abusive or inappropriate language with peers and teachers to promote safe, respectful interactions.

On **14 August 2026**, the **ILD Team** conducted **"A Recipe for Friendship & Unity"** for MYP 1-5 to celebrate National Friendship Day and Independence Day. Students created colourful friendship recipe cards using ingredients such as **cups of kindness, spoons of honesty, a pinch of laughter, lots of respect, and unlimited trust**, celebrating **friendship, empathy, unity in diversity, and acceptance**.

Dr. Bornali Yadav, Student Counselor

Class Assemblies

Global Leadership

The MYP Year 1 assembly explored the theme “Patriotism Meets International Mindedness” through a dynamic, student-led debate on the motion *“This house believes that true patriotism requires international mindedness.”* Featuring structured arguments, spontaneous rebuttals, and interactive audience poll, students examined how global collaboration strengthens national growth and local identity. The assembly highlighted the IB Learner Profile attributes of being Thinkers, Inquirers, and Communicators, demonstrating how open-minded dialogue, research-backed evidence, and global awareness empower young learners to become active global citizens and responsible leaders.

The MYP Year 2 assembly brought students together for a thought-provoking debate on the motion *“This house believes young people identify more as global citizens than as citizens of their own country.”* Students explored how social media, technology, travel, global issues, and cross-cultural interactions are shaping the identities of today’s youth. Presenting contrasting viewpoints, the speakers questioned whether increasing global connectedness is changing young people’s sense of belonging to their own nation. The lively exchange of ideas encouraged students to listen to different perspectives, challenge assumptions, and support their opinions with relevant examples.

Assemblies

Mindfulness and Well-Being

MYP3 students actively participated in an engaging debate on the motion “*This house would prioritize international agreements over National Sovereignty, when the two conflicts.*” during the school assembly. The debate provided students with an opportunity to explore different perspectives on the balance between a nation’s independence and its responsibilities towards the international community. Students presented well-reasoned arguments, responded confidently to opposing viewpoints, and demonstrated strong communication and critical-thinking skills. The enthusiastic participation and thoughtful contributions of the students made the debate an enriching and meaningful learning experience.

MYP 4 class assembly centered on the thought-provoking theme “**Patriotism Beyond Borders,**” inspiring students to explore how love for one’s country can go hand in hand with global responsibility. Through an engaging **skit** and an energetic debate on “**This House believes that true patriotism requires international-mindedness,**” students examined the importance of empathy, cultural understanding, global cooperation, and responsible citizenship. Presenting perspectives on both sides, they reflected on whether true patriotism also involves respecting different cultures, working collaboratively across borders, and responding to global challenges. The debate encouraged students to listen actively, challenge assumptions, and express their ideas with logical reasoning. Overall, the assembly strengthened their **communication, critical thinking, collaboration, and international-mindedness**, while reinforcing the idea that patriotism can reach beyond national boundaries.

Three Way Conference Stakeholder Engagement

The school organised a **Three-Way Conference for MYP 1–5 students**, providing a meaningful platform for students, parents and teachers to come together and reflect on learning and progress. Students took ownership of the conference by presenting their academic achievements, learning experiences, strengths and areas for improvement. They shared their reflections, discussed challenges and identified personal goals for continued growth. Parents had the opportunity to understand their child's learning journey and engage in constructive conversations with teachers. The conference encouraged **student agency, reflection, communication and collaboration**, while strengthening the partnership between home and school. It was a valuable experience that empowered students to take greater responsibility for their learning and development.

Space on Wheels Holistic Excellence

The Gaudium School hosted an engaging Space Bus event in collaboration with ISRO's National Remote Sensing Centre (NRSC), Hyderabad, bringing space science directly to campus. Stationed alongside the running track, the centerpiece outside was a giant inflatable Moon showcasing detailed surface locations and lunar landmarks.

Inside the bus, students embarked on an educational walk-through featuring exhibits on Chandrayaan's mission trajectory, rocket models, and interactive astronomy displays. Guided by two NRSC representatives and their class teachers, classes toured the bus in a smooth, circular flow.

Extending the experience, a dedicated exhibit set up at the D-block portico highlighted the upcoming Gaganyaan mission, displaying detailed rocket models and portraits of the four astronaut designates. This hands-on initiative provided students with an extraordinary glimpse into India's space advancements, igniting curiosity and inspiring the next generation of space enthusiasts.

Ms. Akriti Rajput, Space Lab Facilitator

Field Trips

Stakeholder Engagement

On 30 July, the **MYP 1** students went on an exciting field trip to **Chowmahalla Palace**. Although it was a rainy day, the pleasant weather made the journey enjoyable. Students especially enjoyed the long bus ride, spending time together, talking, laughing, and sharing happy moments.

At the palace, students explored the magnificent Khilwat Mubarak (Durbar Hall), known for its carved doors, and beautiful Belgian crystal chandeliers. They also visited the Armoury Exhibit, which displayed historic swords, daggers, shields, and armour.

The **MYP 2** students visited the **Telangana State Forest Academy** for an enriching educational field trip. The visit provided students with an opportunity to explore nature and connect their classroom learning with real-world experiences.

The **MYP 3** students visited the **Botanical Garden**, Kondapur, on Wednesday, 12 August 2026, from 9:00 a.m. to 3:00 p.m., as part of their experiential learning programme. The visit provided students with an opportunity to connect classroom learning with the natural environment through observation, exploration, and hands-on activities.

Independence day Celebration

Core Value

Our school celebrated **Independence Day** with great pride, enthusiasm and patriotic spirit. The celebration brought the school community together to honour the nation and reflect on the values of freedom, unity and responsibility. The programme featured inspiring **patriotic songs and vibrant dance performances**, filling the atmosphere with national pride and enthusiasm. A special highlight was the **felicitation of student achievers**, recognising their outstanding accomplishments and encouraging them to continue striving for excellence. The celebration was a meaningful blend of patriotism, talent and appreciation, reminding students of their role in building a responsible and progressive nation.

IT Monitoring and Digital Safety

Mindfulness and wellbeing

The IT team conducted routine checks of laptops used by **MYP 4 and MYP 5 students** to promote responsible and safe use of school devices. The checks focused on identifying unauthorised or suspicious activities and ensuring that devices were being used appropriately for academic purposes. This initiative reinforced the importance of **digital responsibility, cybersecurity awareness and adherence to school technology guidelines**, helping create a safe and secure digital learning environment for all students.

TGS MUN

Global Leadership

The school organised an engaging **Model United Nations (MUN)** conference, providing students with an opportunity to step into the roles of diplomats and representatives of different countries. Through committee discussions, debates and negotiations, students explored global issues, shared perspectives and worked collaboratively towards solutions.

The event helped develop **research, communication, public speaking, critical thinking and leadership skills** while encouraging students to understand diverse viewpoints. The MUN served as a meaningful platform for students to express their ideas confidently, engage in respectful dialogue and develop a deeper understanding of global challenges and international cooperation.

Gaudium School emerged as the champions of the All-India gymnastics championship, securing the top position among schools nationwide.

The All-India gymnastics championship, organized by the national gymnastics federation, concluded with Gaudium School taking the top spot among schools from across the country.

The school's team, composed of young athletes, showcased strong performances in multiple gymnastics disciplines, earning points that outpaced competitors from other institutions.

This victory marks a significant milestone for Gaudium School, underscoring the growing emphasis on sports and physical education within its curriculum.
