

MYP 1 Design PictoBlox Basics

Learning Objective

By the end of this lesson, students will be able to:

- Identify the PictoBlox interface.
- Create simple programs using blocks.
- Make a sprite move and speak.
- Run and stop a program.

What is PictoBlox?

PictoBlox is a block-based coding software that helps us create animations, games, stories, and AI projects without typing complex code.

Parts of the PictoBlox Interface

1. Stage

The area where sprites perform actions.

2. Sprite

A character or object that performs actions.

3. Block Palette

Contains different coding blocks.

4. Scripts Area

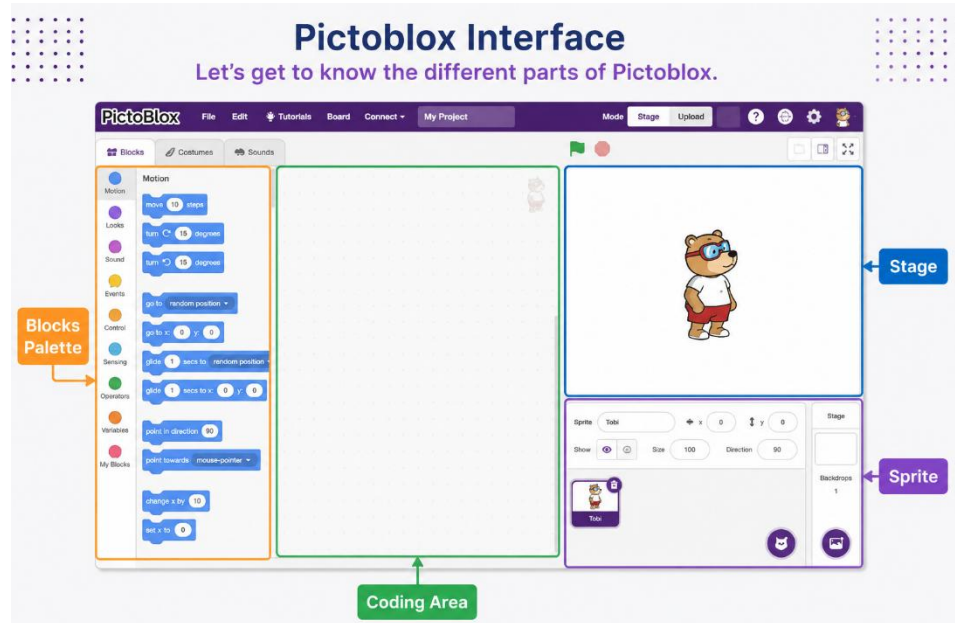

Where blocks are joined together to create programs.

5. Green Flag

Starts the program.

6. Stop Button

Stops the program.

Activity 1: Make the Sprite Speak

Blocks Used

- When Green Flag Clicked
- Say "Hello, World!" for 2 seconds

Steps

1. Drag the "When Green Flag Clicked" block.
2. Attach the "Say" block.
3. Type:

Hello, World!

4. Click the Green Flag.

Output:

The sprite will say:
"Hello, World!"

Activity 2: Move the Sprite

Blocks Used

- When Green Flag Clicked
- Move 50 Steps

Steps

1. Add the Move block.
2. Change the value to 50.
3. Run the program.

Output

The sprite moves forward.

Activity 3: Speak and Move

Blocks Used

- When Green Flag Clicked
- Say "I am learning coding!"
- Move 100 Steps

Output

The sprite speaks and then moves.

Block Categories

Category	Purpose
Motion	Move sprites
Looks	Change appearance
Sound	Play sounds
Events	Start actions
Control	Repeat and wait
Sensing	Detect actions
Operators	Perform calculations

Homework

PictoBlox Practice

Task 1

Create a program where the sprite:

- Says your name.
- Waits for 2 seconds.
- Moves 50 steps.

Task 2

Create a program where the sprite:

- Says:
Welcome to Coding!
- Moves 100 steps.
- Says:
Thank You!

Task 3

Answer the following:

1. What is PictoBlox?
2. What is a Sprite?
3. What is the purpose of the Green Flag?
4. Which block category helps a sprite move?
5. Name any three block categories.

Challenge Task

Create a program where the sprite:

- Says "Hello!"
- Moves 50 steps
- Says "I love coding!"
- Moves another 50 steps

Take a screenshot of your project and submit it.
